

## DESCRIBE A DAY IN THE LIFE OF YOUR CHARACTER

Things to include:

- What is the weather like on the day? How does this make your character feel?
- What is your character wearing? Is this a signature outfit for your character?
- Describe an activity that your character might be doing. Why does your character like this activity?
- Who does your character interact with? How does your character act towards these people?
- Add more of your own ideas, remember to use lots of describing words! You want your readers to be able to visualize what you are thinking. Remember to think about the most important parts of the scene that they need to know to make an accurate image in their minds.
